Omsk State Technical University,
mechanical engineer (1984 – 1988)

PERSONAL QUALITIES

I am extremely organized, details-oriented person and able to work under tight deadlines and multiple tasks. I pay special attention to details. I love to study and participate in the development of project concepts together with the team, but I am able quickly generate and implement ideas on my own. I am communicative and responsible. I love working with printing-houses and typesetting and I love to see the end final result of my work.
